NLC to host Public Information Session New High Prairie Campus

Northern Lakes College is pleased to announce that the firm, Manasc Isaac Architects has been selected to design the new NLC High Prairie campus. The new campus will be located next to the High Prairie Elementary School. This project will make a significant difference for both College and high school students in High Prairie. The new facility will allow College students to remain in their home community and access a wider range of post-secondary opportunities. High school students will be able to take advantage of numerous dual credit programs. By partnering with the High Prairie School Division and Holy Family Catholic Regional Division on this project, local high school students will have tremendous opportunities to graduate with not only a high school diploma, but with post-secondary credits and certificates.

Northern Lakes College is hosting a public information session on January 31, 2018 at the High Prairie campus (4208-53 Avenue) from 3:00 pm to 8:00 pm. The community is invited to drop in, view the conceptual drawings, and provide feedback. Representatives from Northern Lakes College and Manasc Isaac will be available to answer questions about the concept design, and gather your ideas and feedback. The College is excited about the new campus, and looks forward to receiving community input.

Northern Lakes College is a multi-campus college located in northern Alberta and is focused on providing relevant, quality programs through a distributed learning model, serving over 6,000 students annually. To meet regional needs NLC offers a wide range of certificate and diploma programs in Business, Health Sciences and Allied Health, Human Services, Technology, Trades, University Studies and Academic Upgrading. The College collaborates with Campus Alberta partners to offer degree completion opportunities throughout its service region, including a Bachelor of Education and a Bachelor of Social Work. Northern Lakes College also provides a wide variety of professional accreditation and certificate programs through its Continuing Education and Corporate Training Department. Northern Lakes College houses the Woodland Operations Learning Foundation (WOLF) to provide Forestry and related post-secondary and professional development programs.
