

For Students who are using Corporate laptops or join live sessions from Work

NLC recommends End user to activate Private mode by following instructions below.

1. On your computer, open Chrome.
2. At the top right, click More  > **New Incognito Window**.
3. A new window appears. In the top corner, check for the Incognito icon .

You can also use a keyboard shortcut to open an Incognito window:

- Windows, Linux, or Chrome OS: Press **Ctrl + Shift + n**.
- Mac: Press **⌘ + Shift + n**.

You can switch between Incognito windows and regular Chrome windows. You'll only browse in private when you're using an Incognito window.

You can also choose to block third-party cookies when you open a new incognito window. [Learn more about cookies.](#)

Sometimes Incognito mode is disabled on corporate laptops due to Security concerns. In that case, students need to contact their own IT Dept.
