Purpose

This guideline communicates:

- Priorities and actions for gradual return to working and learning on campus in support of our continued response to the COVID-19 pandemic.
- Protocols to be followed when attending campus, CALPs, and CAPs for work or learning.
- High-level details of the services resumption in each stage.

Priorities

- Health, safety and well-being of students and employees.
- Student learning.
- Service to current and future students.
- Maintain and support community partnerships.

Four Staged Approach

Northern Lakes College (NLC) is taking a flexible approach to a gradual return to campus. To limit the potential spread of the virus and minimize its impact on students and employees, we have planned return to campus in a staged approach as follows:

- Stage 1: Remote work and classes, essential workers only on site.
- Stage 2: Hybrid approach to work and classes, only students and employees with purpose coming onsite.
- Stage 3: Face to face classes commence, with an increase in availability of services and an increase of staff returning to campus.
- Stage 4: Return to normal operations.

We are currently in Stage 3 of 4. The date of entering into Stage 4 is July 5th, 2021. Moving from one stage to the next stage was dependent on provincial health data and government direction. It is possible that we will revert to an earlier stage before moving forward again. Refer to Appendix A for the details on each stage.

General Health Protocols to be followed

Personal Measures to Prevent the Spread:

- Complete the Alberta Health Service (AHS) self-assessment for Albertans daily before arriving on campus. Anyone who feels ill, and particularly those with cold/flu-like symptoms of cough, fever, shortness of breath, runny nose or sore throat, or any of the other symptoms identified by AHS, must not come to campus.
- Consider downloading the contact tracing app as recommended by AHS.
- Continue to follow health guidelines for personal hygiene, such as washing your hands frequently, coughing or sneezing into your bent elbow, and avoiding touching your face or rubbing your eyes. These measures are

especially important before and after coming into contact with high-touchpoint surfaces like door handles, bannisters, kitchens and other campus equipment.

- For stages 1 to 3 maintain a physical distance of two meters from others when possible. Masks must be worn at all times.
- Use automatic door buttons wherever possible to reduce touchpoints. Follow any “entrance” and “exit” signs posted on building doors to allow people to keep their distance. When there is only one door, yield to those exiting for Stages 1 to 3.
- For stages 1 to 3 elevators should only be used when necessary. No more than one person may use an elevator at any time unless there is sufficient space for two people to stand two metres apart. When possible, use an object to press elevator buttons. After using NLC elevators, thoroughly wash your hands or use the hand sanitizer provided near the elevator. Use stairs whenever possible.
- For stages 1 to 3 follow directional arrows when they are present. Walk on the right-hand side of hallways and stairwells wherever possible. If there is insufficient space to maintain a two metre distance, yield to oncoming traffic.
- Employees and students that have travelled internationally, including international students coming from out-of-country, are required to complete a mandatory 14-day quarantine and be symptom free before accessing campus.

Physical Safeguards for Stages 1 to 3:

- Foot traffic within buildings is regulated by closing buildings, restricting access points, and placing directional signage on walls and floors.
- Plexiglass barriers are placed at front-end service desks.
- Hand Sanitizer is provided throughout the College, including each campus entrance and exit point.
- Enhanced cleaning and disinfecting of high-traffic, high-contact, and common areas will be determined based on building occupancy.

Administrative Safeguards:

- Plans are in place to respond to illness and outbreaks on campus. Refer to the NLC COVID-19 Exposure Prevention and Response Plan for details.

International Students

The Government of Canada requires international students coming from out-of-country to quarantine for 14 days prior to the start of their studies. These students and their co-arriving family members will be supported during the mandatory quarantine period in accordance with the College’s International Student COVID-19 Plan. Furthermore, Student Wellness and Counselling Services will continue to engage with and support by distance international students with respect to COVID-19 information, monitoring and planning. These support services are outlined in the College’s International Student COVID-19 Plan, and will be in effect for both Stages 2 and 3 of this relaunch plan.

Additional Information

Occupational Health & Safety and Facilities and Ancillary Services departments have put many COVID-19 safety measures in place at all campuses, illustrated in Version 4 of the Re-entry COVID-19 Hazard Assessment. Each employee is expected to review this document and forward the completed Acknowledgement Form to Human Resources for stages 1 to 3.

The NLC Relaunch Guidelines document is a living document and will be updated as guidance is provided by the Senior Leadership Team, the Alberta government, and health authorities.

Other sources of information include:

- [The COVID-19 information page on the College website](#)
- The COVID-19 information tile on the NLC Connect app
- [The Government of Alberta COVID-19 information site](#)

External groups or organizations with space on any NLC campus:

- Must adhere to all NLC COVID-19 protocols

Exposure Prevention and Response Plan

Students / Employees in Campuses

I Have Symptoms of COVID-19 and/or a Positive Test Result

If you have symptoms of COVID-19 and/or test positive for COVID-19:

- AHS states that you are legally required to self-isolate for 10 days from the onset of symptoms or until your symptoms resolve, whichever is longer. However, the College requires that your symptoms must have fully resolved before you may return to any NLC campus so that you do not potentially infect other individuals at the campuses.
- All students and employees are required to immediately notify the College if they have accessed a campus within 10 days of the onset of symptoms and/or have tested positive for COVID-19.
- All students, including international students, are to contact their Instructor, and/or Coordinator. The Chair and/or Dean will contact Student Success at (780) 849-8633. Employees are to contact Human Resources at (780) 849-8715. Human Resources and/or Student Success may request further information in relation to date(s) and any close contacts.

Negative COVID-19 Test Results

If AHS has tested you for COVID-19 and your results are negative, you are not legally required to self-isolate if you are symptom free and have not been in contact with a known case of COVID-19 or have not returned from travel outside of Canada within the last 14 days. However, if you have symptoms, the College will expect you to stay home until your symptoms fully resolve.

For guidance on AHS requirements regarding a negative/positive COVID-19 test result, please consult the Government of Alberta's [Advice for People Tested for COVID-19](#).

Positive Test Result for Variant Strain of COVID-19

If you have test positive for the variant strain COVID-19:

- AHS will notify all individuals who test positive for the variant strain COVID-19.
- AHS requires you to self-isolate for at least 10 days from when your symptoms started, or from the date you were tested.
- It is strongly recommended by AHS that individuals who test positive for the variant strains P.1 or B.1.351 COVID-19 isolate outside of their immediate household in order to reduce the likelihood of transmission to family members.
- Students and employees are required to immediately notify the College if they have accessed a campus within 10 days of the onset of symptoms and/or have tested positive for the variant strain COVID-19.
- Students, including international students, are to contact their Instructor, and/or Coordinator. The Chair and/or Dean will contact Student Success at (780) 849-8633. Employees are to contact Human Resources at (780) 849-8715. Student Success and/or Human Resources may request further information in relation to date(s) and any close contacts.

For up to date information on AHS requirements regarding a positive variant strain COVID-19 test result, please consult [Variants COVID-19](#).

Close Contacts to COVID-19

AHS defines' a close contact as any individual who has:

- Lived with or was within 2 meters of a person with COVID-19 for 15 minutes or more of direct contact, (multiple interactions for a total of 15 minutes or more, even if a mask was worn during that contact), or
- Has had direct contact with bodily fluids of a person who has COVID-19 (was coughed or sneezed on), or
- Provided direct care for a person who has COVID-19, or
- Has physical contact with a person who has COVID-19, such as handshake, hugging, kissing, or sexual activity, or
- Shares items with a person who has COVID-19 such as drinks, personal hygiene items, cigarettes, vapes, lipstick, eating utensils.

AHS mandates that a close contact to an individual who has tested positive for COVID-19 (Variant and Non-Variant) self-isolate for 14 days from the time of exposure, and to monitor for symptoms. A first COVID-19 test should be booked as soon as the person is notified of being a close contact of another who has tested positive. If this test is negative, a second test will need to be booked within 10 days after the last exposure. The second test can be booked prior to day 14 of self-isolation.

As required, both Student Success and Human Resources will contact any students and staff that are defined as a close contact by AHS. As such, close contacts shall adhere to their legal responsibility to self-isolate for 14 days and be tested for COVID-19.

The College is subject to strict reporting responsibilities with provincial health and safety legislation. Most importantly, by reporting immediately to us, it helps the College keep our community safe.

Monitoring Symptoms when at a Campus

If you have onset of COVID-19 symptoms when at a campus, you must leave immediately. At such time you must wear a face mask and maintain physical distancing of 2 meters from all other individuals.

- Any individuals providing assistance to others must also wear a face mask and adhere to the physical distancing protocol.
- If you require immediate medical attention for any reason, call 911, and tell someone.
- Those waiting for assistance to leave the campus may be asked to enter an isolation section of the campus. Isolation sections are not occupied by employees or students.
- Students leaving the campus must notify their Instructor and/or Coordinator.
- Employees leaving the campus must notify Human Resources.

Partially Vaccinated

A person is considered partially vaccinated 14 days of receiving the first dose of a COVID-19 vaccine. Partially vaccinated students and employees must still wear masks and maintain physical distancing of 2 meters from other individuals and adhere to all other COVID-19 campus safety measures.

- Individuals who are partially vaccinated, who have been exposed to a case of COVID-19, but have no symptoms are to quarantine for 10 days, and should get tested. Your quarantine may end early if your results are negative after seven or more days. If you test negative before day 7, you must remain in quarantine and complete a second test with a negative result on or after day 7 to end quarantine.
- Individuals who are partially vaccinated, who have not been exposed to a case of COVID-19, must isolate if they have symptoms, and should get tested. If you test negative before day 7, you must remain in quarantine for a total of 10 days from exposure date. If you test negative on or after day 7 and your symptoms have resolved, your quarantine can end.

Fully Vaccinated

A person is considered fully vaccinated 14 days after receiving the second dose of a COVID-19 vaccine. Fully vaccinated students and employees must still wear masks and maintain physical distancing of 2 meters from all other individuals and adhere to all other COVID-19 campus safety measures.

- Students and Employees who have been fully-vaccinated and have been exposed to a case of COVID-19 but who are without symptoms, are not required to isolate. If symptoms manifest, individuals must isolate for 10 days, and should get tested. Isolation can end after receiving a negative result.

All students and employees are required to notify the College immediately, if they have accessed a campus within 10 days of the onset of symptoms and/or have tested positive for COVID-19. All students, including international students, are to contact their Instructor, and/or Coordinator. The Chair and/or Dean will contact Student Success at (780) 849-8633. Employees are to contact Human Resources at (780) 849-8715. Human Resources and/or Student Success may request further information in relation to date(s) and any close contacts.

For up to date information on Alberta Government requirements regarding partially and/or fully vaccinated safety measures, please consult [COVID-19 Vaccine](#).

Deep Cleaning and Closure

In the event of a confirmed case of COVID-19, Facilities & Ancillary Services will deep-clean the campus and/or affected area. This area will remain closed as per Alberta Health Services and/or Alberta Occupational Health and Safety guidelines.

Pre-existing Health Conditions

Students with COVID-19 symptoms related to a pre-existing health condition or illness are to contact Student Success at (780) 849-8633. If employees have any COVID-19 symptoms related to a pre-existing health condition or illness, they are to discuss this confidentially with Human Resources. As a preventative measure to ensure the safety of the College community, you may be required to provide a medical note from a health care provider in order to gain access to a campus.

Students in NLC Residences

NLC housing has single, shared, and family units. During this pandemic, only students will be allowed to occupy NLC residence units. Students living in residence are expected to follow all NLC COVID-19 safety protocols at all times.

Stages 1-3

Residence Common Areas & Visitors

All common areas, including fitness facilities and television rooms, will remain closed.

Students must adhere to the 2 metre physical distancing protocol when possible. If this is not possible, students must wear a mask.

Members of the public, visitors, or guests are not permitted in NLC residence buildings.

Single Residence Units

Residence units with a single washroom will be restricted to one student occupant.

Students in single residence units are expected to thoroughly and routinely clean their residence. The College recommends using disinfecting wipes.

Shared Residence Units

Shared residence units will be limited to two student occupants.

Students are expected to maintain a physical distance of 2 meters whenever possible when in the residence unit. When this is not possible, students must wear a mask.

Students are required to thoroughly clean their bedrooms and any shared spaces on a routine basis. The College recommends using disinfecting wipes.

Each student will be assigned a washroom. Students must thoroughly and routinely clean their washroom.

Shared residence units will have a common kitchen for use by the two student occupants. Students must stagger use of the kitchen to ensure adherence to the physical distancing protocol.

Family Residence Units

Family residence units are limited to immediate family only. It is recommended that family residence adopt a frequent cleaning disinfecting schedule.

For all stages if you have symptoms of COVID-19 and/or test positive for COVID-19 while living in NLC housing:

- Students and/or employees are required to immediately notify the Senior Director of Facilities and Ancillary Services at (780) 849-8751 or the Student Housing Coordinator at (780) 751-3278. Students, including international students, must also notify their Instructor and/or Coordinator. The Chair and/or

Dean will contact Student Success at (780) 849-8633. Employees must also notify Human Resources at (780) 849-8715.

- Student Success and/or Human Resources may request further information in relation to date(s) and any close contacts.
- If the student/employee lives in a shared housing unit, they will be directed to an isolation unit within the residence building. The other occupant will be relocated to another housing unit.
- Student/Employee in single housing must isolate in their unit.
- Family residents must isolate in their dedicated isolation room within their family unit, and not leave the residence until they are symptom free.
- AHS states that people are legally required to self-isolate for 10 days from the onset of symptoms or until their symptoms resolve, whichever is longer. However, the College requires that your symptoms must have fully resolved before you can return to shared NLC residence units.

Negative COVID-19 Test Results

If your COVID-19 test results are negative, you are not legally required to self-isolate as long as:

- you are symptom free
- you have not been in contact with a known case of COVID-19
- you have not returned from travel outside of Canada within the last 14 days.

If you have symptoms, the College will expect you to stay home until your symptoms fully resolve.

Positive Test Result for a variant Strain of COVID-19

If you have tested positive for a variant strain COVID-19 while living in NLC Housing immediately notify the Senior Director of Facilities and Ancillary Services at (780) 849-8751 or the Student Housing Coordinator at (780) 751-3278. Students, including international students, must also notify their Instructor and/or Coordinator. The Chair and/or Dean will contact Student Success at (780) 849-8633. Employees must also notify Human Resources at (780) 849-8715. Human Resources and/or Student Success may request further information in relation to date(s) and any close contacts. If the individual lives in a shared housing unit, they will be given an isolation unit within the residence building and the other occupant will be relocated to another housing unit. Family members living within the same unit will be given separate isolation units.

The College requires that symptoms fully resolve and AHS guidelines are followed before returning to shared NLC residence units.

For guidance on AHS requirements regarding COVID-19 test results, please consult the Government of Alberta's [Advice for People Tested for COVID-19](#).

Deep Cleaning and Closure

In the event of a confirmed case of COVID-19, Facilities & Ancillary Services will deep clean the residence or the areas impacted. These areas will remain closed according to guidelines from Alberta Health Services and/or Alberta Occupational Health and Safety.

Support Services

The College will provide on-going support to students who have tested positive for COVID-19 during their self-isolation in student housing, including the safe delivery of groceries and essential supplies.

Please be advised that students must pay the cost of supplies delivered by the College.

International students will be supported in accordance to the College's International Student COVID-19 Plan.

Appendix A: NLC Staged Approach to Relaunch

Stage 1 – August 2020	Stage 2 – Sept 2020	Stage 3 – June 14, 2021 Physical distancing and masking remain in effect.	Stage 4 – July 5, 2021
Northern Lakes College Campus, CALP, and CAP Access			
No general public access - employees only with Senior Leadership approval.	No general public access - employees (with Senior Leadership approval) & current students only.	Students, employees, and members of the public must sign upon entry and exit.	No restrictions.
Employees work remotely if possible.	Approx. 25% of employees with Senior Leadership approval on campus with purpose: those who need to be onsite to work, where demand exists. The rest work remotely.	Working from home order is lifted but still recommended. Some positions may be required to be on campus as per operational needs.	No restrictions.
Single point of entry – staff sign in must be done by Security or designated College personnel where applicable. Spaces that are not to be used will marked and, where possible, locked.	Single point of entry –staff and students must be signed in and out by Security/Access Facilitator or designated College personnel where applicable. Spaces that are not scheduled or to be used will be marked and, where possible, locked. Students that need to access a campus must schedule time with Security/Access Facilitator or designated College personnel at that campus as needed.	All students, staff & guests are to use single point of entry, and must be signed in and out by Security/Access Facilitator or designated College personnel where applicable. Spaces that are not scheduled or to be used will be marked and locked when possible.	No restrictions.
