HEALTH CARE AIDE ESTEP

Instructional Fees

Book List

Are you working as an uncertified Health Care Aide? The eSTEP program allows you to earn a Health Care Aide Certificate and up to 36 high school credits. To enrol, you need a signed letter from your current employer confirming 200 hours of work as an uncertified aide. There are five intakes per year: October, December, February, April, and June. Apply at least six weeks before your preferred start date, as registration closes on the 10th of the month prior to each intake. You have one year from your start date to complete the program. Health Care Aide eSTEP students are invoiced once for all courses in the program. Tuition rates for eSTEP are half of those for the regular Health Care Aide program. The total LRF and Technology fees are the same for both programs.

Course	Term	Pre-Req Co-Req	Mode of Delivery	PSC	HSC
